

HEALTH

Supportive Community Health Services

United Way of South
Wood & Adams Counties

GOAL: IMPROVING QUALITY OF LIFE FOR A SPECIFIC POPULATION WITH AN IDENTIFIED NEED.

40% of Wood County and 43% of Adams County households are struggling financially, despite earning income above the Federal Poverty Level. Living paycheck-to-paycheck, yet unable to afford all essentials or save for emergencies, we term these households ***ALICE: Asset Limited, Income Constrained, Employed.***

54% of Wood County senior households and 47% of Adams County senior households struggle financially with income below the ALICE Threshold.

United Way's investment in partner programs helps seniors access the care and support they need – meaning they can retain a high quality of life while living independently as long as possible.

267

Seniors in south Wood & Adams Counties received support services through partner programs to improve their quality of life in 2022.

Access to basic care can be a challenge for individuals with limited health care coverage, like many ALICE households.

United Way's investment helps sustain programs who meet health needs of underserved populations – meaning improved access to care and increased quality of life.

736

Individuals received dental treatment through a partner program in 2022.
